IMPORTANT PATIENT INFORMATION

The Completion Of Private Certificates and Reports

Please take the time to read the following information.

Unfortunately, these days we are being asked to complete more and more forms of increasing complexity. For example, insurance forms, financial indemnity policies, private sick notes, private health cover/hospital claim forms, passport and driving licence applications, holiday cancellation forms, fitness to travel certificates, health club membership applications – to name but a few!

Whilst individually, they may not appear to be significant, they often add up to extra hours of work for the GPs each week.

We have found it necessary, therefore, to charge for this service as recommended by the British Medical Association. A list of the recommended minimum charges is printed overleaf.

Thank you for your understanding in this matter.
